APPLICATION FOR PATENT TERM ADJUSTMENT UNDER 37 CFR §1.705(B)

The applicant hereby petitions for reconsideration of the Patent Term Adjustment (PTA) accorded the above-referenced patent application. Attached herewith is a copy of the Notice of Allowance including a Determination of Patent Term Adjustment under 35 U.S.C. § 154(b), mailed May 6, 2008 (Exhibit A), for the above-referenced application. The Notice of Allowance states that the Patent Term Adjustment at allowance is 921 days. Correction of the Patent Term Adjustment calculation to increase the PTO delay from 957 days to 960 days, adjusting the total PTA from 921 days to 924 days, is respectfully requested.

I. REVIEW OF PATENT TERM ADJUSTMENT CALCULATION

A review of the Patent Term Adjustment History in the PAIR/PALM system shows that the United States Patent and Trademark Office (PTO) calculated the applicant delay as 36 days. The applicant concurs with this calculation.

A review of the Patent Term Adjustment History in the PAIR/PALM system shows that the United States Patent and Trademark Office (PTO) calculated the PTO delay as 957 days. The applicant respectfully disagrees with this calculation.

II. CALCULATION OF APPLICANT DELAY

A review of the Patent Term Adjustment History in the PAIR/PALM system shows that the United States Patent and Trademark Office (PTO) calculated the applicant delay as 36 days. The applicant agrees with the PTO's calculation of the applicant delay.

III. CALCULATION OF PTO DELAY

The applicant electronically filed a Request for Continuing Examination on October 4, 2007 (Exhibit B). As is evidenced by the Electronic Acknowledgement Receipt, this was received by the USPTO on October 4, 2007.

The PTO mailed a Notice of Allowance on May 6, 2008 (Exhibit A).

A review of the Patent Term Adjustment History in the PAIR/PALM system (Exhibit C) shows the date of receipt of the Request for Continuing Examination as October 7, 2007, and not October 4, 2007, as shown on the Electronic Filing Receipt, and that 3 day error caused a three day error in the calculation of PTO delay associated with the mailing of the Notice of Allowance on May 6, 2008. Accordingly, the correct PTO delay associated with the mailing of the Notice of Allowance should be 92 days, and not 89 days as shown on the Patent Term Adjustment History in the PAIR/PALM system (Exhibit C).

Accordingly, correction of the Patent Term Adjustment calculation to increase the total PTO delay from 957 days to 960 days is respectfully requested.

IV. DOCUMENTS ENCLOSED

A copy of each of the following documents is provided herein:

- 1) Copy of the Notice of Allowance mailed May 6, 2008 (Exhibit A);
- 2) Copy of the Request for Continuing Examination electronically filed on October 4, 2007 (Exhibit B);
- 3) Patent Term Adjustment History in the PAIR/PALM system (Exhibit C).

V. REMARKS

In consideration of the events described above, the applicant believes the Total PTA calculation of 921 days is incorrect. The applicant respectfully requests recalculation of the patent term adjustment to reflect that the total PTO delay is 960 days, resulting in an increase of the Total PTA from 921 days to 924 days.

Please charge the petition fee of \$200 required under 37 CFR §1.18(e), and apply any additional charges or credits to our Deposit Account No. 06-1050.

Respectfully submitted,

Date: August 6, 2008

DETAILED ACTION

This notice of allowance is responsive to the request for continued examination filed 2007. Claims 1-30 and 35-50 are presented for further consideration.

Response to Arguments

Examiner notes Applicant's amendments which incorporate limitations regarding reserving a headroom (i.e. extra capacity) in forums, exclusively available to users having an interactive relationship with a user already in the forum. In light of Applicant's amendments, as suggested by Examiner, arguments regarding claims 1-30 and 35-50 rejected under 35 USC §103 have been fully considered and are persuasive. The rejections of the claims have been withdrawn.

Allowable Subject Matter

Claims 1-30 and 35-50 are allowed. Pursuant to 37 CFR 1.109 and MPEP 1302.14, the following is an Examiner's Statement of Reasons Allowance.

Reasons for Allowance

Claims 1, 16, 39, 40, 43 and 46 are directed towards a patentably distinguishable method, system and computer-readable storage medium for populating online forums, and when an instance of the forum is considered full, determining whether a extra capacity, or headroom, is available in order to place users with special designations or interactive relationships. Applicable prior art discloses creating clones of online forums,

placing users in forums based on interactive relationships, and limiting the number of users of online forums to a maximum limit, as set forth below in detail throughout the previous office actions. However, Examiner asserts that the prior art of record fails to teach or suggest the Applicant's feature which provides a headroom above the determined maximum of the online forum allowing an entering user related to a current user entrance into the forum. Therefore, the Examiner asserts that this feature is patentably distinct and non-obvious over the prior art.

Claims 35, 36, 47, 48, 49 and 50 are directed towards a patentably distinguishable method, system and computer readable storage medium for populating graphical 3D virtual worlds with users represented as moving avatars and when an instance of the forum is considered full, determining whether a extra capacity, or headroom, is available in order to place users with special designations or interactive relationships. Applicable prior art disclosed creating clones of online forums, placing users in forums based on interactive relationships, limiting the number of users of online forums based on interactive relationships, limiting the number of users of online forums to a maximum limit, and 3D virtual worlds with users represented as moving avatars, as set forth in detail throughout the previous Office actions. However, Examiner asserts that the prior art of record fails to teach or suggest Applicant's feature which provides a headroom above the determined maximum of the online forum allowing an entering user related to a current user entrance into the forum. Therefore, Examiner asserts that this feature is patentably distinct and non-obvious over the prior art.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LaShanya R. Nash whose telephone number is (571) 272-3957. The examiner can normally be reached on 9am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenton Burgess can be reached on (571) 272-3949. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
